The University
HOMESTEAD ASSOCIATION

THE LANDS OF THE ABOVE NAMED ASSOCIATION are situated in San Francisco and are eligibly and most favorably located, adjoining the grounds purchased by the Presbyterian University Society, on which College buildings are to be at once erected. The site is less than thirty minutes ride from Montgomery street, lying just west or back of the lands of the South San Francisco Homestead and Railroad Association and the Bay View Park, almost within a stone's throw of

ST. MARY'S COLLEGE.

The tract will require little or no grading, there being scarcely a single lot on which it would not be safe to build without any change of grade. It commands a

Beautiful View of the Bay,

And its opposite shore, and has a soil of extreme richness. So great are the natural attractions of the spot that very many of the wealthy citizens of San Francisco have already purchased whole blocks in the same tract, and design building residences thereon.

The Rev E. Thomas, D D.,

Is President of the Association. Lester L. Robinson formerly Vice President of the Sacramento "alfresco Company, is the Treasurer, and Thomas B Lewis, formerly of Portland, Secretary.

Four lots 25x120 feet each constitute a share, costing $150—paid in monthly instalments of $10 each, after the first payment of $20 has been made.

Maps and books giving full information of the workings of the Association can be obtained at the store of J. L. PARRISH & CO.

It is an easy and a cheap way for young men to procure property which will in a few years make them independent.

PIONEER WASHER.
JAMES BRUSIE,
AGENT FOR OREGON AND WASHINGTON TERRITORY.

THIS CELEBRATED WASHING MACHINE IS now for the first time introduced to the Oregon public. It is unrivalled for its simplicity, durability and the rapidity and ease of its action. Washing the dirtiest clothes perfectly clean in from five to ten minutes with but slight labor, and leaving with proper care, for ten years. The wear and tear of clothing in washing by this machine is vastly less than by any other known process of washing. It is easily worked by one person.

This Machine captured the Special Premium at the California State Fair, and all that have used it pronounce it an invaluable adjunct to old housekeepers and families and washing men and washing women.

It has been extensively introduced throughout the State of California and receives the universal commendation of all who have used it.

The undersigned is now in the city of Portland, where he can be seen at Messrs. Knapp, Burrell & Co's, corner of Front and Alder Sts., East side, Portland, and is prepared to furnish the Machine to purchasers and also to sell and dispose of County Rights for the sale of the same.

[DESPATCHES TO THE OREGONIAN.]

DATES TO MAY 5.

Washington News.

WASHINGTON, May 3.—Sixty thousand acres of public lands were disposed of during March at the following land offices in California: 26,000 at San Francisco, 4,000 at Stockton, 9,000 at Marysville.

The Cabinet is in session to-day, all are present except Browning.

J. M. Ashley has returned to Washington on business relative to impeachment.

The Japanese had an interview with the President for twenty-five minutes.

Judge Underwood, of Virginia, is here consulting Stansbury in regard to writ of habeas corpus sued out to bring Jeff. Davis before the Circuit Court of Richmond.

Jeff., Mrs. Jeff and A. Johnson.

Former Governor Moorhead, May 3.—Mrs. Davis went to Washington yesterday to confer with the President in regard to Jeff.'s release.

Murderer Arrested.

CHICAGO, May 3.—The man who murdered a telegraph operator at Gosport Ind. was arrested to-day.

Fire and Riot at Chicago.

CHICAGO, May 4.—A fire this forenoon destroyed the Merchant's Hotel, Crosby's splendid Opera House and joining was in imminent danger, but was saved by the strenuous exertions of the firemen.

Rioting commenced in the south and west divisions of the city this morning. It is difficult to obtain correct reports. It is rumored that two or three men were killed. There was considerable rioting to-day. Workmen were driven out of several establishments by a mob. A strong force of police succeeded in restoring quiet. Many leaders have been arrested. It is believed there will be no further disturbances.

The loss by fire at Merchant's Hotel to-day was $200,000. The Opera House was somewhat damaged by water.

CHICAGO, May 4.—Another very destructive fire occurred last night. Two five story wholesale houses at the corner of Lake and South Water streets were destroyed. Six firemen were buried under falling walls. Three were rescued alive, but badly injured. The others are dead.

There are some anticipations of more riotous demonstrations to-day. The Times is very indignant on account of the feeble action of the city authorities. Certain railroad officers have received letters threatening their lives unless they agree to the eight hour system. They refuse to make any compromise with strikers. It is said summary measures will be adopted to-day if the riots break out anew.

CHICAGO, May 4.—There has been no rioting to-day. Squads of police were stationed at various manufacturing establishments throughout the city where trouble is expected. No mob appeared.

A large elevator was fired this morning and totally destroyed. The fire was undoubtedly the work of an incendiary, and is supposed to be one of the strikers. The loss is about $250,000. The elevator burned was nearly empty, but it adjoined two others full of grain. One was somewhat injured by water.

CHICAGO, May 5.—Another incendiary fire occurred at 2 o'clock last night. A machine shop and foundry on Adams street, were totally destroyed. Loss $3,000. It was undoubtedly the work of some discontented laborers. The Mayor of the city has issued two proclamations warning the citizens to keep the peace. The great body of workingmen deprecate the action of the rioters. It is thought no more disturbances will occur. There is a general feeling of uneasiness throughout the country over the labor question. It is very likely a settlement of the question in Illinois. The workingmen seem to be moderating their demands. It is quite probable that a settlement will soon be effected.

A Stock Gambler Arrested.

BOSTON, May 4.—John Leighton, an extensive mining stock operator, with one million liabilities, has been arrested by a detective on a criminal process obtained by New York parties before mentioned, pending a requisition. He is accused of an over issue of stocks and embezzling the funds of Boston companies.

More "Democracy" in Kentucky.

LEXINGTON, May 4.—Lieut. Rice, with a detachment of infantry, last night attempted to arrest the murderers of the negroes at Nicholasville. He was resisted by a superior force, and failed. Rice and one private were wounded in the fight.

Fire at Rochester.

ROCHESTER, May 4.—A fire this morning destroyed Palmore's block and the Washington Hall block on Main street. Several persons who were on the roof of the latter perished. The remains of John Pike, Henry Porcelier and Joseph Warnett were taken from the ruins. Loss over $100,000. The principal sufferers are Jos. Palmer, the Monroe estate and L. C. Hendry.

Laborer's Strike.

CINCINNATI, May 5.—The Moulders Union, of Ironton, Ohio, are on a strike. The strikers attempted to drive off men who had gone to work, and one of the attacking party was killed.

Slavery to be Abolished in Brazil.

NEW YORK, May 5.—Special dispatches to the Herald, received by cable, gives advices from Rio Janerio, dated April 8th, that the Emperor of Brazil has issued a decree for abolishment of slavery, to take effect in twenty years. The children born after 8th of April, 1867, are free.

New York Markets.

NEW YORK, May, 4.—The commercial situation continues unsatisfactory. The only notable exception is the buoyancy of breadstuffs. California wheat has been brought from Liverpool in considerable quantities and more is coming.

The standard brands of American flour are also offered freely at Liverpool for the market. This reversal of the usual current will probably continue until the harvesting of the fall crop.

Domestic cotton goods are lower and unsettled. Great auction sales of staple goods have been resumed at a heavy loss, the prices realized being below current cost of production.

Sperm oil dull. Prices are from 11 to 25 per cent below that of a year ago.

Tons firm.

Copper are quiet.

Anthracite candles firm.

Nitrate of soda—2 cargoes of Peruvian sold to arrive.

Cane goods heavy. Dry goods dull. Freights firm.

NEW YORK, March 5.—Six ocean steamers left here for Europe and seven for coast-wise ports yesterday. The former taking a large number of passengers.

Southern Items.

MOBILE, May 4.—The colored mass Convention declared itself radical and resolved to proclaim themselves part of the Republican party of the United States and not keep up a separate organization. Should the employers discharge the negroes because they refuse to go to their tools, the negroes will demand a standing army for their protection and ask Congress for further legislation, and if necessary, demand confiscation. They also resolved that it is their undoubtable right to hold office, sit on juries, ride in all public conveyances and be admitted to hotel tables and places of amusement.

RICHMOND, May 4.—Pollard was prohibited from delivering a lecture on Southern Chivalry at Lynchburg, Virginia.

CHARLESTON, (S. C.), May 4.—The street car question is settled. The negroes are admitted, but only a few take advantage of the privilege.

AUGUSTA, May 4.—Gen. Pope has appointed Foster Blodget Mayor. The City Council was inaugurated today.

Miscellaneous.

PHILADELPHIA, May 4.—Two colored children were smothered to death by a fire to-day. A fireman was killed. Dr. Clintock's residence was burned from sparks from a steam engine while the latter was quenching the first fire.

NORFOLK, May 4.—The military authorities here are not advised of what action will be taken in the habeas corpus case of Jeff. Davis.

NEW ORLEANS, May 4.—Sheridan has abolished the Board of Levee Commissioners.

NEW YORK, May 3.—The Times special says Collector Smythe in a sworn statement made to the President, denies allegations of the Investigating Committee, and produces letters signed by a great number of leading merchants of New York declaring that the business was never done more satisfactorily than at present.

Judge Underwood, of Virginia, yesterday granted a writ of habeas corpus to Judge Jeff Davis before the court, which meets in Richmond on May 6th. The writ is directed to Burton commander at Fortress Monroe. It has been placed in the hands of Deputy Marshal Dunton for service and made returnable on the 13th. Assurance has been received from Secretary Stanton that Burton will be directed to obey the writ. Underwood and Attorney General Stansbury are believed to favor an early trial. Davis' counsel will demand trial or an unconditional discharge.

Of twenty four grand jurors for this term, five are colored.

The Judiciary Committee of the House, had a brief session yesterday. No witnesses were examined. The investigation will be resumed to-day. Boutwell is expected.

Ex-Mayor Monroe, of New Orleans is here urging Sheridan's removal. He complains of an arbitrary enforcement of registration and removal of civil officers.

Private advices from New Orleans say the Radicals expect to carry the city in the coming election.

The decision in the injunction case is expected on Monday, the 6th.

The Tribune's special dispatch says that if not tried in Underwood's court it is understood that Davis will come before the United States Circuit Court of North Carolina, Maryland and Virginia which meets on the 6th. It is rumored there will be a change of the allotment of judges. If not disposed of by these courts there is authority for stating that the prisoner will be released by the Executive.

WASHINGTON, May 4.—Forty Apaches attacked a train near La Paz Arizona on the 2d of March killing three men, wounding two others and destroying the train. A military patrol is to be established between La Paz and Bale creek.

The disbursements of the treasury during the week were $4,850,000. The receipts of internal revenue for the week were $1,800,000. The receipts from customs from March 25th to March 30th, were $3,168,000. The public debt bearing no interest on May 1st was $1,540,000,000 debt bearing currency interest $697,000,000 that bearing no int rest $418,650,000. Amount in the treasury $148,000,000.

Secretary Seward gave a State dinner to the Japanese and afterwards a reception at which the diplomatic corps and Cabinet and the Japanese were present. Mrs. President Juarez, was also present, creating considerable sensation.

The President has signed the commission of Samuel Blatchford as Judge of the Southern District of New York vice O'Hetts, resigned.

Gen. Hancock has held a conference with the Kiowas, who desire peace. Hancock is going south after the Comanches and Arrapahoes.

Capt. Constable has been assigned to the command of the Montana.

H. J. Mahler argued to-day to show that the Supreme Court has jurisdiction of reconstruction cases. Attorney-General Stansbury replies on Monday.

Macon (Ga.) advices say that Gov. Jenkins has served a subpœna on Gen. Pope to go to the Supreme Court.

The World's special dispatch says it is stated that Chase has decided to exchange Judicial Circuits with Field. The latter will try Jeff. Davis.

NEW YORK, May 5.—A special dispatch from Washington gives the details of the plan of relief by the Freedmen's Bureau under the act of Congress, about which pay fifty dollars per day to the station, yet such is the fact. We will shortly prepare some interesting facts for publication on this subject. Silver has recently been found, no doubt in paying quantities, in the vicinity of Canyonville. Many of our citizens already have valuable claims located. The ore, in appearance, compares well with the rich ores of Nevada. Copper ore is abundant and unquestionably rich in many parts of this mineral district. Iron, in inexhaustive quantities, is lying idle in the hills and mountains of this immediate vicinity, and plenty of the best limestone to form the ready means for reducing it to mercantile value.

TUESDAY MORNING MAY 7, 1867

Precept and Practice

The San Francisco *Examiner*, the organ of the Democratic party in that city publishes a long article urging the cultivation of rice in California by Chinese labor It says that the States and Territories depending on San Francisco for a market consume annually over 60,000,000 pounds of rice, valued at $2,500 000 The *Examiner* thinks that if the labor of the Chinese were diverted into this field California could soon be made a greater rice growing State than was South Carolina in her palmiest days This is probably true —and that such an industrial enterprise would add largely to the wealth of California, there can be no doubt In fact the *Examiner* proves this, and shows "that one hundred thousand acres of fair land would yield sufficient rice to enable us to retain here two and a half million dollars per annum." It remarks by way of argument "Capital can make the cheap labor of the Asiatic of benefit to our working classes, first, by producing a most desirable article of diet somewhat lower than its now imported price, and secondly, by causing the retention here for employment in other business of the large amount of gold sent out of the country to pay for it" All this is good argument. But what we particularly desire to call attention to is the singular phenomenon of such an article from such a quarter It shows that even those who are most insane on this general question, are now an then subject to lucid intervals, and that when they come to look at the matter from an economical or financial point of view, they at once demolish and repudiate the elaborately nonsensical arguments which they had framed on the subject while under the inspiration of "Democracy." When that class of editors are writing for political effect they would make their readers believe that the country is to be ruined and the laboring classes beggared by the inundation of Chinese; but when they come to consider the subject in an economical point of view, they hold that Chinese labor will contribute immensely to the prosperity of the country and that even the white laboring classes will be benefitted by it, as it will enable them to obtain commodities at lower prices This is illustrative of the habit which many men have of always pretending to favor high wages, but never failing to hire those who will work for the least money, utterly indifferent whether those whom they employ have white, black or coppery skins. Here is a further illustration of the difference between precept and practice,

The Prevailing Commercial Depression

A leading commercial publication of New York has an article under this head, which takes an able and comprehensive view of the present situation of the finances and commerce of the country. After remarking that a spring season so depressed and unsatisfactory as the present is hardly within the memory of the merchants of New York, that there is unusual depression in the Western States, that the demand for cotton goods is so limited that Eastern manufacturers have either stopped their mills or are running on half time, and that in the woolen, leather and iron trades there is a general stagnation, the journal alluded to presents in a very forcible manner the more potent causes of the prevailing depression. We make an extract·

We are in the midst of a process of recovery from the derangement incidental to the war; and the occupation is much more painful than was the growth of the disease When, from the rise in the gold premium and the steadily growing scarcity of products, prices and wages were rapidly advancing, all flattered themselves upon their rapid gains and deemed war a singularly prosperous game, never for a moment dreaming that the pleasing prosperity was altogether fictitious—the hallucination of a disease. Soon after the war closed the unhealthy stimulus was withdrawn, and the self-curative tendencies of commerce began to assert their force The gold premium had to decline, if we would ever return to a safe business basis, and the process of supply and demand in respect to products had to be restored to their normal relation to each other, in order that the ordinary range of values might be recovered. The first thing to be anticipated was a curtailment of consumption, from the inability of the people to pay at the prevailing high prices The result of that process must be a steady gain of supply upon demand, and the result of that a loss to producers and merchants upon their stocks These losses, again, have a tendency to enforce a contraction in the consumption of the classes employing their capital in trade and manufactures while they have caused a certain amount of labor to be thrown out of employment, which has necessitated a still further curtailment in the consumption of the working classes. We are now in the midst of the operation of these processes; and their effect is apparent in the general lack of profit upon producing or trading operations, and in consequent curtailment in the amount of capital thus employed

There are some who profess to believe that the political sentiment of the North is changing its direction, or at least, abating the energy of its flow. The Richmond *Times* does not so view it, and compares the expectations which have been entertained on this subject to the hopes of the man who waited on the banks of the river for the floods to go by, that he might pass over with dry feet It knows that "Congress still holds an impregnable position with the Northern masses," and knowing this, makes itself "mournfully merry" over the delusive hopes of those who think they see "better days coming" in a change of sentiment. It indulges in this sarcasm on its sanguine Northern allies

In sweeping the Northern horizon in search of some cheering sign, we fail to discover anything less deceptive than some mirage like that which fills with false hope the traveler upon a desert as he toils wearily along, half dead with thirst and hunger The Democratic journals "*Land Ho!*" very often, but we cannot discover anything but inhospitable coral reefs and treacherous sand banks. Our unfortunate Northern friends are made excessively happy by the occasion of the election in some village of a Democratic Coroner, Aldermen or Mayor. This excessive thankfulness for small favors denotes the extreme poverty of the Conservative party. When a great paper like the New York *World* throws up its hat and denotes a leader to the triumph of Coroner Squink, of the town Tomahawk," and tells us how he triumphantly bore aloft the banner of conservatism by a majority of eight, we are reminded of the cry of the frail sisters of Constantinople—*In the name of the Prophet—figs*

THE SOUTHERN RELIEF BILL —The following is a copy of the act for the relief of suffering in the South as passed by both Houses of Congress and approved by the President

Resolved, That the Secretary of War be and hereby is empowered and directed to issue supplies of food sufficient to prevent starvation and extreme want to any and all classes of destitute or helpless persons in those South ern and Southwestern States where failure of the crops or other causes have occasioned wide-spread destitution that the issue be made through the Freedmen's Bureau, under such regulations as the Secretary of War shall prescribe and to that end the Secretary of War is hereby authorized and directed, through the Commissioner of the Freedmen's Bureau to apply so much as he may deem necessary for the purposes aforesaid of the unexpended moneys heretofore appropriated to supply freedmen and refugees with provisions or rations provided that the expenditure shall not extend beyond the present appropriations already made for the Freedmen's Bureau

On the 15th of March it was reported that the number of persons totally destitute and in need of immediate assistance was 60,000, of whom 33,000 were whites As it is obviously impossible to ascertain and report all the cases of destitution, the actual number must have been largely in excess of these figures It will be observed that more whites than blacks are in need of relief This has been the case in several states for nearly two years, and in those States the Freedmen's Bureau has rendered more assistance to the whites than to the blacks

DEMOCRATIC "TOLERATION"—Will the Copperhead organs which are always boasting of the tolerant character of their party, make a note of" the following dispatch illustrating their degree regard for the virtue of toleration? The dispatch is taken from a San Francisco paper

LOUISVILLE (Ky), April 19—R T Baker Unionist candidate for Lieutenant Governor who was advertised to speak at Germantown, on Monday was prevented by a gang of returned rebels and a part of the town burned

MOBE TRICHINA —The Springfield (Mass) *Republican* publishes a detailed account of several cases of trichina which occurred a short time ago in that city. A small piece of muscle taken from the limb of one of the deceased persons showed that the trichinæ were distributed at the rate of 50,000 to 80 000 to the square inch Pieces of the muscle have been sent to Prof Agassiz

The *British Colonist* of Victoria pronounces in favor of Frank Clark for delegate to Congress from Washington Territory The interest that this representative of royalty takes in the affairs of that Territory is to be accounted for on the hypothesis that it believes that Clark will, if elected, be in a better position to press, the claims of the two British Companies for which he is attorney Victoria is interested in having these claims, amounting to some $6 000 000 in gold, paid at once hence the interest of the Victoria people in the election

In 1864 Congress passed an act to establish a National Gallery of Statuary in the Old Hall of Representatives at Washington The State of Rhode Island takes the lead in furnishing statues of her eminent men for the gallery,—the committee appointed by her Legislature having made contracts for the statues of Roger Williams and Gen Nathaniel Greene at a cost of $8 000 in gold Other States ought to follow her example at once

THE ROSEBURG ENSIGN —We have received the first number of this paper It is a twenty-four column sheet and is well filled with valuable matter It will advocate the principles of the Union Republican party We welcome it to the list of Oregon newspapers

MR FEARY of this city will continue to receive and forward mines to the ARIZONA LOT SALE for a few days longer The distribution will come off on the 15th

SAN FRANCISCO ASSAYING AND REFINING WORKS,

No. 416 Montgomery Street,

(*Successors to Kellogg, Hewston & Company*)

CAPITAL STOCK, $1,000,000!

Directors:

JOHN PARROTT, CHAS E McLANE,
WM C RALSTON, A HAYWARD,
LOUIS A. CARNETT.

LOUIS A CARNETT President and Manager.
JOHN HEWSTON Jr. Chemist and Superintendent.

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS

One eighth of one per cent (heretofore a quarter) for all amounts over $1,000, and two dollars for any smaller sum Returns made in twenty-four hours

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent, for all amounts over that sum, and one per cent on the silver contained Returns made in twenty-four hours

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS.

On bullion under 900 parts gold, 2 cents per ounce.
On bullion from 900@600 parts gold, 4 cents per ounce
On bullion from 600@750 parts gold, 6 cents per ounce
On bullion from 750@949½ parts gold, 8 cents per ounce
Above 950 the only charge will be for coinage But there will be no charge for refining less than two dollars

FOR COINING GOLD,

This charge will be the same as at the Mint—a half of one per cent—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us

RETURNS IN COIN IN FORTY EIGHT HOURS

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint

Gold bars of other Assayers, in good standing, will be cashed by us at the highest market rates

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co's Express

CHARGES AT U S. BRANCH MINT

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that institution

For refining bullion under 900 parts gold 3 cents per ounce

For refining bullion from 900@600 parts gold, 5 cents per ounce

For refining bullion from 600@750 parts gold 7 cents per ounce

For refining bullion from 750@830 parts gold, 11 cents per ounce

For refining bullion from 830@949½ parts gold 14 cents per ounce

The charge for coinage is half of one per cent, and the charge for making fine silver bars, the same

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage

850 par to equal Mint return, at refining charge of 14 cents

845 par to equal Mint return, at refining charge of 14 cents

805 par to equal San Francisco A & R Works return, at refining charge of 8 cents mh16d3m

STREET IMPROVEMENT.—On Friday last we had something to say about the action of the Council in regard to the improvement of Second street. On the following day the *Herald* denounced our item as an elaborate "attack" upon the majority of the Council, as "an abusive article upon Messrs. Fechheimer, Hallock, Rosenheim and Zeller," as "malicious in its spirit and false in its representations." The *Herald* undertakes to "state simply the facts," as follows:

"Two weeks ago Mr Hallock presented a petition from property holders upon Second street, praying for an order for grading and laying down a plank roadway from E street to Morrison, including eleven blocks. Mr. Lownsdale asked that action upon the petition be deferred, to allow the property holders between Morrison and Madison streets to join in the same. On Wednesday last, Mr Lownsdale came into the Council with a petition of a number of the property holders of the last named section, including five blocks, asking for a macadamized road. In order to make the improvement conform to the petition of the holders of three-fourths of the property upon the same street, Mr. Hallock moved the amendment for a plank road, which carried."

The "facts" are that on the 17th of April, petitions were presented asking for the improvement of *that part* of Second street from E to Morrison, by a plank roadway. By a vote of the Council, a notice was immediately ordered to be published for such improvement. Subsequently, the same evening, April 17th, on motion of Mr. Lownsdale, the vote by which the "notice" was ordered, was reconsidered and the whole matter was laid on the table. At the meeting of the Council on the evening of April 24th, petitions were presented from property holders between Morrison and Madison streets asking for the improvement of *that part* of Second street. These petitions were referred to the Committee on Streets and Public Property. The same evening, April 24th, by a vote of the Council a notice was ordered published for the improvement of *that part* of Second street between E and Morrison. In this action, the petitions from property holders between Morrison and Madison, were ignored. The two sections of the street were not considered together. The petitions for improvement were treated, and the action of the majority of the members of the Council, was taken as though there were no relationship between the two sections of the street. Mr. Hallock drove along with the proposition to improve the Northern section, leaving Mr. Lownsdale to get along with the Southern section as best he might. There was no waiting as the *Herald*, by implication, says, "to allow the property holders between Morrison and Madison streets to join in the same." Of this, the record is better evidence than is the *Herald*. The Southern section was not permitted "to join in the same." When their petitions were presented, a "majority of the members of the Council," referred them to a committee, putting it out of the power of the Council, for the time being, to act upon the desired improvement of the southern section; while at the same meeting, April 24th, a "majority of the members," ordered the publication of notice for the improvement of the northern section, thus showing their determination not to permit the southern section "to join in the same." The notice for the improvement of Second street between K and Morrison, was published in the *Herald* on the 26th of April. At the following meeting of the Council, on the last day of May, Mr. Lownsdale reported back the petitions for the improvement of Second street between Morrison and Madison streets, stating that the property holders asking for Macadam improvement represented 1,000½ feet of the section, while those asking for plank improvement represented only 733½ feet. Mr. Lownsdale then moved that notice be given for the improvement prayed for by a majority of the petitioners. *Then*, Mr. Hallock, to show his willingness to allow *all* the petitioners on Second street to "join," moved to amend Mr. Lownsdale's motion so as to provide for the publication of notice for plank improvement. This motion of Mr. Hallock was carried and this is how the two sections were graciously allowed "to join in the same." The notice for improvement of *that part* of Second street between Morrison and Madison, was published in the *Herald* of May 6th, over a week subsequent to the publication of the notice for improvement of *that part*, between E and Morrison. These are the "simple facts" as they are found upon the record. The *Herald's* article says that the postponement of the first petition was asked for by Mr. Lownsdale, and then, by fair implication, it represents the matter as having been postponed and acted upon at the subsequent meeting, all the petitions together. There was in it, great ignorance of the "simple facts" or else it was "false in its representations." So far as the "attack" and "abusive article upon Messrs. Fechheimer, Hallock, Rosenheim and Zeller," are concerned, we doubt if either of those gentlemen looked upon our item as such. In it we characterized the action of the majority of the Council as "an overriding of the will of the people," and we still aver that. The Council was not considering the petitions all together, nor all the street together—one section, the Northern, had been disposed of in accordance with the petitioners' will; the southern section alone was under consideration, had been treated separately all the way through and was, last week, disposed of, not in accordance with the will of a majority of the petitioners, but was "an overriding of the will of the people" which some of them pronounce an "outrage." We are not prepared to go so far as that, but we do insist that the Council did not treat the petitioners with the respect which a constituency has a right to demand from its servants.

THE MINES OF VERMILLION RIVER.—We learn by a letter dated "Pen d'Oreille Lake, April 24th," from a reliable party to a gentleman in this city, that "the steamer *Mary Moody* was having all the business she could attend to in transporting travelers and pack trains across the lake, and that she had made six extra trips within the past twelve days. He further states that the first Walla la stage left the lake yesterday. Good reports are coming down from the new diggings on Vermillion river. Pat Miller, the discoverer, is said to have just come out. He says the mines are thirty miles from the mouth, and that he got from seven to thirty-seven cents to the pan without going to the bed rock. I understand forces have been laid off at the diggings and at the mouth of the Vermillion, and that a great deal of excitement prevails." Should this information prove authentic, we have every reason to believe that a large extent of mining country will be opened the present summer, all of which will be easily accessible and also entirely dependent upon this section of the country for supplies, although it is generally understood that in the vicinity of these mines there is a large extent of arable land susceptible of cultivation and settlement. The Columbia and Montana Stage Company have a line of stages running from Wallula to the Lake, a distance of 170 miles, making the trip in three days. Fare, $20. The steamer *Mary Moody* runs across the Lake and up the river to Cabinet Landing, a distance of some 40 miles. Passage, $5. This point is, at the present time, as far as steamboats are running, and must be about 100 miles from the Vermillion river, which can be easily reached by a good trail, the same as now traveled to Montana. The Oregon and Montana Transportation Co.—pany, who own the steamer *Mary Moody*, has two other steamboats—one entirely completed and the other nearly so, which, as soon as business opens, will be put on the route. We will then have steamboat navigation, as is expected, to within some thirty miles of the mines, with the exception of a portage at the "Cabinet" of seven miles, over a good wagon road, and another short portage at Rock Island of 200 yards. The route is also on the direct line of the Montana trail, and a weekly mail contract has been awarded to Mr. John Allman, to carry the mails from Wallula to Missoula City, which from three years from next July, and we understand Mr. Allman intends putting on a line of coaches as soon as practicable. No doubt before the season closes, some rich developments will be made in this hitherto undeveloped country.

JUDGE SHATTUCK'S LECTURE.—A friend who was present at the lecture of Judge Shattuck, Saturday evening, hands us the following, requesting us to give it a place:

"The lecture on Saturday evening was valuable, not only for its clear historical light upon the course of the Priest and of the Politician, but for its extreme accuracy and brevity of statement. There were no waste words, and yet the subject—religion as an element in the government of nations—which was his real theme—was profounded in distinct outline throughout the entire discussion. That since moral and religious forces had always appeared in the control of the patriarchal family, in the tribal, in the aggregate community styled nation, either by a recognized priesthood and an established church, or in real though unrecognized forms, they must always coexist with all the governments which the constitutes, was a most natural conclusion. His second inference, that when religion is invested with citizenship and suffrage, and is made a political point in the Government, and so far responsible for its justice and virtue, it must appear and assert its rights at the polls, as well as in the pulpit, was inevitable from the argument."

I. O. G. T.—The following are the officers of Multnomah Lodge, No. 12, I. O. O. T., installed May 4th, 1867 to serve for the quarter ending July 31st, 1867: W. S. Stevens, W. C. T.; Miss Mary A. Bird, W. V. T.; James A. Waters, W. S.; Miss Jennie Gilham, W. A. S.; A. W. Castro, W. F. S.; Miss Mattie Boone, W. T.; E. A. Kelton, W. M.; Miss Ingle, W. D. M.; Mrs. Lorina Holman, W. I. G.; Jacob Stiffler, W. O. G.; F. S. Crosby, Mrs. Schramm, W. R. H. S.; Miss Thomas, W. L. H. S.; Joseph S. Kidder, P. W. C. T. Installed by Lodge Deputy, C. Beal.

PIONEER BASE BALL CLUB.—A regular meeting of the Pioneer Base Ball Club was held at their room last night. The following board of officers was elected to serve until the annual meeting in March, 1868: Theodore F. Miner, President; James B. Upton, Vice President, George A. Steel, Secretary and Treasurer. Board of Directors, Wm. Wadhams, S. B. Parrish, Theodore F. Miner, P. W. Dehoff, James Steel, W. K. Witherell, Capt. First Nine.

WILLAMETTE FREIGHTS.—We learn per steamer *Alert*, from Oregon City on Monday, May 6th: 300 gunnies bacon, 4 cases do., 8 bf bale lard, 2 bf bbls dried apples, 26 bf bbls produce, 25 boxes do., 31 boxes eggs, 172 bags wheat, 424 qr sks flour, 6 bales woolen goods, 154 bags feed, 1 pigs rope, 54 bags bran, 3 firkins butter, 1 bale furs, 1 shot-gun, 1 bundle, 4 sacks, 14 pkgs furniture.

THE LEHMI MINES.—We learn that parties who lately shipped goods from Umatilla to Fort Boise and the Idaho mines, have concluded, owing to the late favorable news from Lemhi, to intercept their trains on the road and have them to the Lemhi mines. The accounts from there are cheering and miners are going in there rapidly from Idaho, Montana and other surrounding sections.

FROM VANCOUVER.—A telegram from Vancouver last evening, announces the result of the Fire Department election in that town, yesterday, as follows. At an election of the Vancouver Fire Department, held here to-day, W. H. Troup was elected Chief Engineer, E. H. Fruman 1st Assistant and John Castle 2d Assistant. Considerable interest was manifested.

PROPOSALS FOR BUILDING.—Among the new advertisements this morning, will be found a notice that the Directors of School District No. 1., will receive proposals till the 20th inst. for building a new school-house on block 80, Couch's Addition.

CONCERT.—Prof. H. G Grob, who has been a very successful teacher of music for the last two or three years in this city, this morning announces a grand vocal and instrumental concert, to be given by himself and pupils, on the 8th of June. We learn that among his pupils there are some who have achieved astonishing proficiency considering their childish years, one of whom is little Jennie Rosenheim, who so much pleased the audience at Turn Verein Hall on Sunday evening. They will appear with Prof. Grob on the occasion of his first grand concert.

RELIGIOUS.—The union social meeting will be held this evening at the M. E Church.

PUBLIC SPEAKERS AND SINGERS WILL FIND "*Brown's Bronchial Troches*" beneficial in clearing the voice before speaking or singing, and relieving the throat after any unusual exertion of the vocal organs, having a peculiar adaption to affections which disturb the organs of speech. For Coughs and colds *the Troches* are effectual.

PERFECTLY SAFE IN ALL CASES.—MRS. WINSLOW'S SOOTHING SYRUP, for all diseases of children, such as teething, wind colic, etc., is a safe, reliable and harmless remedy. It not only relieves the child from pain, but regulates the stomach and bowels, corrects acidity and gives tone and energy to the whole system, gives rest to the mother and child. Hostetter, Smith & Dean, Agents for the Pacific coast.

GOOD OFFER.—Barman Bros. have received a large stock of Flannel Suits, which they will sell at reduced rates.

THE FAIREST DYE COLORS.—Nothing has obtained so wide a reputation, nor one more merited, than the *Flamily Dye Colors* of Howe & Stevens. The colors include every desirable shade, and are as fadeless as they are beautiful. Sold by Smith & Davis.

Arrivals at the American Exchange.

AN ANTIDOTE FOR POISON.
THE PAIN KILLER.—Rev. T. Allen, writing from Tavoy, Burmah, says: "Within the past four years I have used and dispensed of about five hundred bottles, but am now out. Please send me a fresh supply as soon as you can—say two hundred bottles. I dare not be without it myself, and there are endless calls for it, both by Burmans and Karens. I always take it with me into the jungles, and have frequent occasion to use it, both on myself and others. One night, while sleeping in an open Zayalo, I was awoke by a most excruciating pain in my foot. On examination, I found I had been bitten by a centipede. I immediately applied the Pain Killer, and found instant relief. In less than an hour I was again asleep."
Rev. Mr Hibbard, writing from Burmah to his father, says: "I have used Davis' Pain Killer for coughs, colds, summer complaints, burns, and for the sting of scorpions, with uniform success. We always keep it where we can lay our hands on it in the dark, if need be." ap20d1o

The Struggle

Since the trade upon the Pacific coast first attracted any considerable attention, there has been, between monopoly and competition a struggle for the control

When monopoly has had the ascendancy, the merchants, farmers, mechanics, and consumers generally have been the sufferers Sometimes bearing upon one class and sometimes upon another

In ocean steamer transportations monopoly has been the ruling motive, and main object of investment, while the value of competition may be inferred from the means resorted to, and the money usually expended to crush it out, as well as from the increased burthen imposed upon the public when competition has been removed.

There are those in this community who thought that slow times and dull business resulted from low freight and passage to San Francisco growing out of the recent competition, while there are others who thought otherwise, and now that monopoly is again in the ascendant, it may be asked, has the matter improved or rather, has it not been made worse? It is true that we have been promised a steamer every week, but what matters that to the farmer and shipper, for instead of prices being lower they are higher, and had we one daily, if run and controled by the monopolists, the prices of freight and passage would be proportionally increased for every additional boat.

It is pretty well understood that some of those monopolists set aside a percentage of their earnings as a fund upon which to draw when running against competition This percentage is added to every man's freight, and is unjustly drawn from the farmer, shipper and consumer, the better to enable the monopolist to increase their burthens. Competition is what we want, and must have in Oregon, and that not alone in ocean transportation

That steamers running to Portland in competition, would be infinitely better for Oregonians, than four or even six in a monopoly or combination, is a proposition too clear to admit of argument. The merchant, farmer, shipper and consumer must have transportation in exporting as well as importing, or the trade of Oregon and of the Columbia river must perish. Those who engage in transportation should be satisfied with less earnings than have before insisted upon. In every other country but this, a fair margin is allowed for the producer. For awhile we had competition in steamers to California. Our trade took a wider range. Farmers talked of enlarging their acres. Oregon products were quoted favorably in New York and elsewhere, in competition with California, and our State began to assume, as she is justly entitled to do, a commercial equality with other States of the Union. But monopoly—broad and deep—seized competition, not by the throat, for that in a fair contest proved ineffectual, but by the pocket. Unfortunately for Oregon that was a competition not coupled with an interest in the prosperity of Oregon. It had its price, and that was paid. The result is increased burdens in the price of freight and passage.

Under these circumstances ought we not to so order our affairs, if possible, as to enable the products of our country to be transported to market, wherever under the sun that market may be found, and with no other tariff than that which is common to all; so giving the greatest encouragement to our mechanical, agricultural and manufacturing interests? The increased prices of freight to and from California, is a tariff upon Oregon products and Oregon trade, and with the additional expenses of reshipping and passing through different hands, it becomes a Protective Tariff in favor of California articles which are not necessarily subject to such tariff. While the revenue derived from this tariff is paid to Californians and goes to swell the general wealth of that State, yet with the commercial world it is to their credit; and we must admit, that if by their enterprise and foresight, they can make and control us as their mere appendage, with the wealth of Oregon tributary to them, simply because we neglected to avail ourselves of the means within our reach, we ought not to complain.

Ought we not then to be up and doing? But what shall we do? What can we do? We should encourage, or procure competition in ocean steamer transportation, not only to San Francisco, but to Panama, giving us a direct trade with New York and elsewhere in exports as well as imports.

To do this will not require much capital for Portland and Oregon. We want a steamer owned and controlled in Oregon to run in the Portland and San Francisco trade, and if need be to Panama. If there is not now, there will soon be an opposition line from San Francisco to the Isthmus with which it might become the interest of Oregon steamer and that to unite, touching upon her sea for freight and passengers.

Such an auxiliary would give to our Senators and Representatives in Congress an opportunity of exercising themselves with the Government for a fair stable consideration. There is no telling what an effort in that direction might do, we do know what it has done for California. Let us therefore wake up. "Competition is the life of business." OREGON.

PORTLAND, May 6, 1867.

A QUASI-REBELLION IN MONTANA.—The Montana *Post* of April 6th gives the following:

Another proclamation from the Executive of the Territory—this time in regard to the laws of Montana. The preamble states that rumors and reports of the annulment of the three sessions are in circulation, and that "certain persons have availed themselves of the uncertainty so caused to refuse obedience to the same," and "no official notification whatever has been made anywhere" or received here in regard to the annulment; therefore, the said Executive declares that the laws of the second, third and fourth sessions are still in force, and are to be respected, obeyed and executed the same as heretofore. He calls on all well affected and loyal people to observe them, and pledges the Executive of the Territory, so long as it remains in the hands of the present incumbent, to see that the same be executed to the letter.

The above interesting document emanates from the familiar source of grandiloquent proclamations and extraordinary sessions of the Legislature. Accepting the assertion that obedience to bogus legislative enactments of the three sessions is being refused, under the rumors we have of the annulling Act, the Executive, as a Democratic official believing or affecting to believe in the validity of the same, is within the bounds of prudence in requesting obedience to the same until official notice is received of their annulment. With the exception of the presumptive assertion that no official notification of such annulment had been made anywhere, we would readily and magnanimously overlook the hostile feeling that inspired this proclamation, were it not for the concluding sentence. In this, the bounds of law, order and patriotism are overleaped, and the Executive pledges himself, defiantly and unreservedly, to enforce all the enactments of the last three sessions, the Acts of Congress to the contrary notwithstanding. The pledge is incendiary, uncalled for and defiant. It does not require citizens of this Territory to be Republicans to denounce without measure the disloyalty of such an overt act of hostility toward the General Government. It is apparently well studied and carefully worded, and throws off all control of Congressional authority, and assumes to establish an independent Government in Montana

The proclamation is a compound of contradictions, calling on loyal people to render obedience because no official notification has been received that certain laws are annulled, and immediately pledges the Executive of the Territory to enforce their obedience, whether they are or not This most surprising and outrageous assumption of power will not be sanctioned by any good citizen who considers its tendency. We say, too, until official notification of the annulment of the laws reaches us, let every loyal citizen pursue the even tenor of his way. We do not believe the bill has become a law, but if it has, and official notice of the same is received, it will be a black day for the men or party who raise the puny arm of rebellious authority against the Government of the United States or the enactments of Congress.

THINKS IT WON'T WORK.—A "Parent," in the Zanesville (Ohio) *Courier*, gives some of the results of the non-whipping system of the School Board in that place First—The order and scholarship have deteriorated more than twenty-five per cent. under the Board's new fangled arrangement—so say a large majority of the teachers, and so say a large majority of the parents Second—It has caused a considerable number of the children to be turned out of the schools Those children mostly belong to the class for whom "free schools" were created Any boy who prefers playing in the streets to going to school, has only to take advantage of this beautiful "rule" and get dismissed from the school. One of our old and honorable citizens informs me that his business for many years has required him almost daily to meet the pupils of one of the ward schools as they leave the school room, noons and evenings, and that until within a few months past he was never treated uncivilly by them. They have now become so impudent and so rude to him that he avoids, as much as possible, meeting them A few days since he threatened to report them to their teachers for their rudeness, and was answered by "d—n the teachers—they don't dare to touch us."

What the Southern Papers Say

The Jackson (Miss) *Clarion* says "We would not have the people of the South deluded into the belief that they can adopt any line of policy by which to ward off the scheme of negro suffrage"

The Griffin (Ga) *American Union* says. We understand that Howell Cobb passed through Griffin a few days ago, and while the cars stopped for an exchange of mail bags and to take on water, he delivered to our people the news that a general confiscation of Southern property is certain We suppose from this that Cobb and his rebel friends intend to array themselves against the Sherman bill so as to make further legislation by Congress necessary If confiscation does come, the people may justly blame Cobb and his rebel friends for it They set out to 'rule or ruin' the country, and as they cannot rule, they may be determined to ruin, and now oppose the Sherman bill that confiscation may come' It adds "The constitutional amendment excluding the leaders from office, it was believed at first, would be sufficient to conquer them, but as that failed to make them give up, the Sherman bill disfranchising a one and enfranchising negroes has been passed If this conquers them, no more radical legislation need be expected But if the people will still listen to the syren sung, 'overpowered but not conquered,' as sung by some editors even now, a sweeping disfranchisement of all rebels, and a tolerable extensive confiscation of rebel property will be very apt to teach them the difference between 'overpowered' and 'conquered' is about the same as between tweedledum and tweedledee If rebels are not conquered now, they will be before Congress is done with them. They may be sure of that"

The Austin (Texas) *Intelligencer* says "We suppose the Governments, created by this bill will be organized promptly, and proceed with the registration of voters, election of delegates to State Conventions, formation and ratification of State Constitutions, elections of State Legislatures and Senators to Congress, with the dispatch which the interests of the country and the exigencies of the times require Of course this bill will not prove satisfactory in some of its details to many of our people, and it is simply impossible in the present condition of the country, that any measure of reconstruction should meet the approbation of all"

The Charleston *Mercury* says "The military law is for us, and, until the law be repealed or modified, it is the law which the people of the South must obey. Nothing but additional trouble can result from resistance or factious agitation. Prudence, good sense and our every interest alike condemn a course which could only aggravate our evils and make our position more uncomfortable What else, then, is left but obedience to the law and an acceptance of the obligations which it imposes upon us?"

The Lynchburg *Virginian* says: "Unjust as the terms imposed upon us are, and impossible as it may be for us to swear 'attachment' to the men who make 'might right,' there is no alternative left us but a choice of evils. We can only counteract in part the evils that were destined for us by the majority of Congress, by putting forth all the means in our power to control them. The President is powerless, the Supreme Court is a nullity, and Congress is omnipotent. What, then, shall we do but make the best of our situation?"

The Fort Smith (Arkansas) *New Era* says: "It is about time now for the loyal Arkansians to look about them and prepare to take their legitimate position as a part and parcel of the governing power of our glorious Union, from which, through the machinations of treacherous leaders, we have been so long withheld."

The Wilmington, (N. C.) *Dispatch* advises its readers to "refuse any participation in the Conventions to be called in the different States, quietly yielding the insignificant political privileges that they propose to grant us, by letting the negroes and albinos take entire charge of the reconstruction business, and relinquish all political aspirations and desires for commercial independence so long as our connection with the Federal Government shall continue." But it significantly adds "We are not unaware that we are in the minority while entertaining these views. Indeed we have been made to feel that we fight the battle for Southern honor and interest almost single handed, so generally has our position been assailed." The Mobile *Advertiser* is alarmed at a meeting in Selma, at which it was resolved to "accept the situation" and uphold the Union party, known as the Republican Congress, and to further its success by all legitimate means. It says: "Let not a radical party be licked into shape in a fishing town in the heart of Alabama without an indignant protest from the true men and women who inhabit it."

The Mobile *Tribune* says: "Alas! demoralization is spreading in the ranks. They who bade defiance to Dagon are preparing to lick the cloven foot of Satan. They who opposed the amendment bill are burning incense to that of Sherman—standing on the end of the spring-board prepared to turn a summersault with the foolish expectation of throwings and thereby in the eyes of radicalism; or with the reprehensible purposes of lapping the swell that the corrupt rump has set out in their back yard in the shape of Government printing—a robbery committed on the people with the avowed object of fostering radical newspapers in the South. The persistent efforts that papers are making in different quarters to get up Conventions, we regard as nothing more nor less than the planting of spring-boards The calling of those Conventions to represent-gun accomplish but one object, that of adopting the provisions of the military bill—betraying the honor of the South down before the thirty pieces of silver are offered as recompense. We look forward to a complete schism in the Southern press at no distant day. Panic, and the hope of getting Government patronage, will induce some that opposed the constitutional amendment to lick the feet of Congress out of gratitude for its Military bill. There has been a specimen Convention at Selma, the proceedings of which are published in the *Times* of that place, with panic-stricken comments in good keeping with them. This meeting was composed in part, of men who have been troubled with paley in the knees for several years past, and, in part, of men whom we expected to see behave with more coolness amidst dangers they cannot avert"

The Columbus (Ga.) *Enquirer* says: "Let the Southern people now await 'orders' from the headquarters of the Generals commanding. We are under military law, and have not been invited or 'enabled' to do any political act as yet. It will be time enough to move when we receive such a summons If politicians on 'the anxious seat' cannot keep quiet until 'the opportunity is offered,' let them agonize to their hearts' content, but we hope that they will not attempt to create disturbance by breaking in upon the regular order of the exercise."

The Savannah (Ga.) *Republican* of the 13th says "Appalling and revolting as some the provisions of this bill, we have no reasonable hope for any modification or repeal of it—it has become a law of the land, and as such must be faithfully obeyed There is no alternative—it is *aptera eaterna* and we have no choice save to decide whether our course shall be such as will avert still harsher terms or bring down upon us more exacting conditions. Wisdom would seem to dictate a quiet acquiescence and our making of necessity a virtue. Let us remember that

'In life wishes fools supinely stay;
In there a will—and wisdom finds a way'"

The Wilmington (N C) *Journal* of March 13th says "Then, if we are to have a Convention, and we see no escape from it, let it be called by the military power of the Government, and in obeying, peaceably and quietly, mandates which we have no power to resist, let our submission, now and in the future, be an earnest and honorable protest against the injustice and tyranny of the Government."

The New Orleans *Picayune* says "One of the most insidious and sinister peculiarities of the present reconstruction programme of Congress is its tendency to create in this and other Southern States a Congressional party, that is to say, a party distinctively in favor of accepting the terms and anticipating the wishes of Congress, on the plea that poverty, and not will, consents, and an opposition to another party composed of those who should not concede so much to the argument of necessity, because not so greatly despairing of the situation Such a division of the conservative ranks in the South could not but precipitate a reorganization of the Southern States under radical policy, and more or less in conformity with radical views and sentiments"

PROGRESS OF INVENTION.—New York with 1,000,000 people, consumes 50,000,000 gallons of water annually, while London, with 1,000,000 people, uses only 60,000,000 Suspecting that there is a great waste of water in New York, it is proposed to introduce a water meter, and charge for what is consumed Wonder if an air meter will be suggested before long Invention may conjure some means of reducing it to private ownership, in which case it will be necessary to measure it out We see but little chance left for new business movements except in the aerial departments of nature. It would add immensely to the aggregate wealth of the country to subject the atmosphere to ownership It would then be fashionable to breathe enough

The prospectus of the New Orleans *Republican* says it will be devoted to the political, commercial and industrial pursuits of Louisiana, in furtherance of which it will support the principles of the Republican Party, and the policy of reconstruction adopted by Congress.

GENERAL SHERMAN ON "HOUSE PROWLING" AND THE LAWS OF WAR.—We have been furnished, says the Selma (Alabama) *Times*, with a copy of the following letter from General Sherman in reply to a Confederate clergyman asking to have his horse restored to him. It was a very good specimen of the erratic humor of that brilliant obieftain and eminent raider, and will doubtless provoke a smile from many a Confed, who was himself occasionally "enroleen in a search for title" where horses, bee hives, or vegetables were concerned:

ATLANTA, Ga, Sept. 16, 1864.

Rev , Confederate Army—Dear Sir Your letter of September 14th is received. I approach a question involving the title of a horse with great diffidence, for the laws of war, that mysterious code of which we talk so much but know but little, are remarkably silent on the "horse." He is a beast so tempting to the soldier, to him of wild cavalry, the fancy artillery, or the patient infantry, that I find more difficulty in recovering a worthless, spavined beast than in paying a million of greenbacks, so that I fear I must reduce your claim to one of finance, and refer you to the great Board of Claims at Washington That may reach your case by the time your grandchild becomes a great-grandfather Privately I think it was a shabby thing in the troops of the Thirty-first Missouri who took your horse, and the Colonel or his Brigadier should have returned him, but I cannot afford to undertake to make good the sins of omission of my own Colonels and Brigadiers, much less of those of a former generation. "When this cruel war is over," and peace once more gives you a parish, I will promise, if near you, to procure out of one of Uncle Sam's corrals, a beast that will replace the one taken from you so wrongfully. But now 'tis impossible; we have a big journey before us, and will need all we have, and, I fear, more too; so look out when the Yankees are about, and hide your beasts! for my experience is, that all soldiers are very careless in a search for plte. I know General Hardee will confirm this, my advice.

With great respect, yours truly,
W. T. SHERMAN,
Major General.

A RARE WIFE.—A Canada paper says The following incident is related in the "back country," in connection with the recent snow storm. At Mount Pleasant, a little village between Shiffnal and Wellington, there lived an aged couple, named Shepherd, the husband being seventy-one years of age, and the wife one year younger Shepherd is engaged as a furnace tender at the Old Park Company's works, and on Saturday night week he went on duty as usual, his time being up at six on the following morning. It will be remembered that during the night of Saturday week snow fell heavily, accompanied by violent gusts of wind, the snow forming deep drifts in exposed places The old woman, on awakening early on Sunday morning, perceived this state of things, and became anxious for the safety of her husband, who would have to cross two or three fields on his way home. She got up, lit the fire, and prepared everything for her husband's breakfast, and when all this was done, found there was yet an hour before he would be home She therefore put lit a lantern, and, taking with her a shovel, set to work and cleared a path through the snow to the foundry, where her husband was at work, a distance of a quarter of a mile, completing her task in time to enable the old man "to walk home comfortably," as she said.
